

The Academic Alliance of the National Center for Women & Information Technology (NCWIT) is a coalition of more than 600 institutions of higher education working to increase women's meaningful and influential participation in computing. The AA provides community, programming, and resources to support members who are creating more inclusive environments for students, faculty, and staff. Join now!

KEY RESULTS

GRADUATING MORE WOMEN

76 percent of all 2018 computing bachelor's degrees were awarded by AA member institutions

INSPIRING CHANGE LEADERS

73 percent of AA member representatives indicated that they made changes to their own behavior informed by their NCWIT participation in 2018

JUMPSTARTING MEMBER INITIATIVES

Since 2007, the NCWIT AA Seed Fund* has awarded a total of \$775,450 to 70 AA member institutions to grow initiatives to increase the recruitment and retention of women in their computing programs. Recipients report increased credibility and viability for future funding.

* The AA Seed Fund is sponsored by Microsoft Research and other generous supporters.

BENEFITS OF MEMBERSHIP

Membership is free for non-profit colleges and universities, and includes:

- invitations to join [NCWIT-Higher Ed](#), a moderated group email list supporting a year-round community of practice around broadening participation in computing
- access to exclusive [funding opportunities and awards](#)
- two free registrations to the invitation-only [NCWIT Summit](#), an annual convening of computing diversity and inclusion change leaders
- eligibility to participate in NCWIT [programs](#), such as [Extension Services](#)
- free promotion of your institution's technical jobs on [NCWIT.org](#)
- opportunities for women computing students at your institution to join the [NCWIT Aspirations in Computing Community](#), giving them access to an extensive network of thousands of women in tech, and to apply for the [NCWIT Collegiate Award](#)
