

Hello Everyone,

Thank you so much for being a part of our inaugural statewide Computer Science Summit. Each of you brought a level of expertise in your specific roles to the event that will help us continue to build this new core subject area. The process will continue to evolve with your feedback but I know that the product will be extremely beneficial to all of our students in Nevada.

I have a couple of final reminders:

1. Here are the links to the surveys that were in the Summit app. Please complete these very short surveys for each of the sessions as well as the overall survey so we may know how to support you. Please leave comments as well: Session Survey - click [here](#) | Overall Summit survey - click [here](#)
2. Remember to email me ([\[redacted\]](#)) or Share in Google ([\[redacted\]](#)) your district/charter/university Strategic Plan by the end of business this Friday, June 22nd. It is ok that it is not entirely complete. I realize that it is a work-in-progress. Templates are in the resources folder (see #4 below) should you need another copy.
3. If you have any outstanding travel paperwork: please send those directly to [\[redacted\]](#) and [\[redacted\]](#) immediately so that the final grant reports can be processed.
4. Link to Google Drive of Summit Resources: click [here](#). I have put all the presentations and resources that I have received to date in this folder. If you presented for me, please send me your documents and I will add them. If you were an attendee that has resources that would be beneficial to this work, please pass them along to me and I will add them there as well. We are a community.
5. And finally, please do not hesitate to reach out to me for support, CS trainings, questions, concerns, everything and anything on Computer Science in Nevada. I am here to assist each of you.

I wish you a safe and happy summer!
